

Business Energy Tax Credit Application for Final Certification for Pass-through Projects

1. When the project is finished, the project owner should complete this application. The project owner must be the same entity as on the Preliminary Certificate. The person signing for the project owner must be the owner or an owner, partner, managing member or shareholder of the project owner. **Important: There may be tax implications to using the Pass-through Option. Please consult with your tax preparer.**
2. Include verification of your **total** project costs. Final eligible certified costs may not be more than 110 percent of the preliminary certified costs unless you have submitted your project changes in writing and received approval from the Oregon Department of Energy before you completed your project. (Cost increases alone are **not** sufficient for the Oregon Department of Energy to issue a revised Preliminary Certification.)
 - If the final total project costs are less than \$50,000, include copies of canceled checks (copy both sides) **or** the contractor's or vendor's invoices/receipts. If you send copies of the invoices/receipts, please make sure they show the date of purchase or installation and the date of payment, are clearly marked "PAID in full" and are identified as from the contractor or vendor.
 - If the final total project costs are \$50,000 or more, send a letter signed by a Certified Public Accountant (CPA) *who is not an employee of your business*. A sample CPA letter is available on our Web site. (www.oregon.gov/ENERGY/CONS/BUS/docs/CPA.pdf)
3. If part of the project included equipment that is leased, include a copy of the lease in the cost verification.
4. Subtract any federal grants from the project costs to arrive at the total project costs. Please note: Utility and local municipality incentives should **not** be deducted. If the total of your financial incentives and the tax credit exceed the final eligible project costs, please contact the Oregon Department of Energy at 1-800-221-8035.
5. The project owner must complete and sign the Project Owner Statement. The Project Owner must be exactly the same entity as that issued on the Preliminary Certificate. If there has been a change in ownership, please contact the Oregon Department of Energy at 1-800-221-8035.
6. **If you do NOT have a pass-through partner** (the tax credit recipient) at this point, mail your application to the Oregon Department of Energy. We will review your final application. If approved, the Oregon Department of Energy will provide a Certified Amount Letter to you that indicates the final certified eligible project costs and the pass-through rate in effect. We will place your final application on "hold" status until a partner is secured. By having your portion of the paperwork finalized and on "hold," the remaining steps can be completed in a timely manner when a pass-through partner becomes available.
7. **If your do have a pass-through partner** and both you and the pass-through partner have signed this Application for Final Certification for Pass-through Projects, mail the completed application to the Oregon Department of Energy and we will review it. If approved, the Oregon Department of Energy will then issue a Certified Amount Letter to you that indicates the final certified eligible project costs and the pass-through rate in effect. We will then issue the pass-through partner a Pass-through Payment Letter. They will make a lump sum cash payment to the project owner equal to the pass-through amount indicated on the Pass-through Payment letter.

8. The project owner will notify the Oregon Department of Energy in writing or by e-mail that the payment has been received.
9. The Oregon Department of Energy will issue the Final Certificate to the pass-through partner (tax credit recipient).

Important: If the project is sold, traded or disposed in some way, or if the terms of a leased project have ended after the Oregon Department of Energy has issued the Final Certificate, the project owner must notify the Oregon Department of Energy in writing within 60 days of the event and before any additional tax credits are claimed.
